

School-Based Health Clinic

Columbia Falls School District and North Valley Hospital are partnering to provide an opportunity for students to access health services at Columbia Falls High School.

Health care providers from North Valley Professional Center and North Valley Behavioral Health have been working with School Staff in designing a school-based clinic that is available to students at Columbia Falls High School.

Our Goal

Improve access to comprehensive health services in support of student wellness and academic achievement.

School Based Health Clinic Basic Service Plan

- **Preventative Care:** Well child checks, sports physicals and immunizations, including health education for students and parents.
- **Acute Health Care:** Diagnosis and treatment of sudden onset conditions, referrals and follow-up visits as necessary.
- **Chronic Condition Care:** Monitoring and treatment of student's chronic medical needs based on diagnosis and condition.
- **Behavioral Health Services:** Behavioral health assessment, treatment and medication management.

We want to hear what services you think would be helpful for your child.

School Based Health Clinic Benefits may include:

- Convenient student access to health services right on the school campus.
- Reduced student absenteeism.
- Reduced work place absences for parents and school staff.
- Coordination of services with the other family health care providers.

For more information on enrolling your child for school based health services, call North Valley Professional Center at 406.892.3208 or visit the website: www.nvhosp.org/our-clinics/north-valley-professional-center, North Valley Behavioral Health at 406.862.1030 or visit the website: <http://www.nvhosp.org/our-clinics/north-valley-behavioral-health>, or you may also pick up an enrollment packet from the High School nurse, Cathy Dragonfly; call her at 406-892-6510 or visit the website: www.cfmtschoools.net. Please look for us at school open houses and events.
