

Montana Behavioral Intervention (MBI)

Columbia Falls MBI Mission

Our mission is to create a collaborative school community in which students and staff are empowered and engaged in improving the climate of our school.

What is MBI?

MBI is a proactive approach in creating behavioral supports and a social culture that establishes social, emotional, and academic success for all students.

MBI uses the Response to Intervention model which is a 3-tiered system of support and a problem solving process to assist schools in meeting the needs of and effectively education all students.

MBI is a program facilitated through the Montana Office of Public Instruction.
